"Providing security and services to improve the quality of life for our residents."

WATER-DEDUCT METER AGREEMENT

Chapter #38/Article 3/Section 1 of the Albers Village Code, outlines the use of Water Deduct Meters for recording outdoor water usage which do not become part of the sewer system.

The customer may use devices, specifically Water Deduct Meters, purchased and maintained by the customer, to measure the flow of water from outside taps from the months of April through September of each year in order to measure the amounts of water used from the public system for purposes such as, but not limited to, the filling of pools, landscape watering, or non-commercial agricultural irrigation.

a) The Superintendent of Water and Sewer shall read and track readings from these devices and calculate a sewer discount for those waters shown not to have been received by the sanitary sewer system.

b) The customer shall present the device for an initial reading **before** it may be used, in order that the Superintendent of Water and Sewer may establish a baseline reading.

c) It shall be the responsibility of the customer to present the meter to the Superintendent of Water and Sewer at any time from the month of April through the month of October in order to request a reading and a calculation for the **once per year** sanitary sewer rate credit.

Water Customer Name _____
Account # _____
Address _____
Phone # _____

I agree to comply with all guidelines/regulations of the Albers Village Code. The Water Deduct Meter information submitted is **ONLY** for the above listed address. The Water Deduct Meter will be submitted to the Albers Water Department for a reading on or before November 15 of each year. **One (1) credit per year will be given for any address.**
